

TAKE SALTS FOR THE KIDNEYS IF YOUR BACK HURTS

We Should Drink Lots of Water and Eat Less Meat, Says Noted Authority on Kidney Disorders

Recommends a Spoonful of Jad Salts In Glass of Water Before Breakfast to Stimulate Kidneys and Eliminate the Uric Acid

Uric acid in meat excites the kidneys, they become overworked, get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy, the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before

breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure, makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

In Honor of Miss Tribble
Miss Eva Tribble, one of June's pretty brides was the guest of honor at a delightful shower given yesterday afternoon by Mrs. J. N. Pearman at her home just south of town. It was a stocking shower and the idea was carried out in a very unique and attractive manner. After the guests, about twenty-five in all had assembled, little Miss Eunice Pearman dressed as a black cat entered the parlor with a sack on her back which she presented to the honor guest. When emptied it was found to contain the many beautiful pairs of stockings, the gifts of her friends. The hostess then distributed cards and each lady was asked to draw a cat which was the source of much fun and merriment.

Miss Tribble's drawing was pronounced as the best and she was presented with a lovely bunch of sweet peas. Delightful nectar was served during the afternoon by Miss Lena McCowan, and Miss Annie Russell.

Later a dainty sweet course was served by the hostess assisted by Misses Allie Pearman, Mattie Bolt, Pauline Smith, and Frances Major. This was the first of several pretty affairs planned in honor of Miss Tribble of whose wedding to Mr. James Pressley will occur on June the 10th.

FIRST COTTON REPORT ISSUED

SHOWS AVERAGE CONDITION OF CROP SLIGHTLY BELOW NORMAL

IN THIS STATE AVERAGE IS 80 P. C.

Report Caused Temporary Rise on New York Exchange—Crop to be Late.

Washington, June 1.—The newly planted cotton crop of the United States showed a condition of 80 per cent of a normal on May 25, the Department of Agriculture, announced today in its first condition report of the season, which had been awaited with interest by cotton, textile and other interests. That condition compares with 74.3 on May 25 last year, 79.4 in 1913, 78.9 in 1912, 87.8 in 1911 and 79.5 the average for the past ten years on May 25.

Until the official report of the government estimating the area planted is issued July 1, calculation will be made by the department's crop experts as to the probable size of the crop. The record yield last season, the decreased foreign takings because of the war and the low price of cotton early this season, are believed to have influenced planters to reduce their planting to some extent. No official reports as to the extent of the reduction have been made but unofficial estimates place the area planted at from 10 to 20 per cent less than last year. The preliminary estimate of the planted area last year made by the department of agriculture last July was 36,960,000 acres.

Comparisons of conditions on May 25, by states, follows:
North Carolina, 85.
South Carolina, 80.
Georgia, 81.
Alabama, 78.
Mississippi, 82.
Texas, 74.
Arkansas, 84.
Oklahoma, 76.
